

# **Partner Integration Guide: White-Label, Cobranding, and Affinity Models**

We're committed to empowering our partners by delivering exceptional value to your company and strengthening your customer relationships. Our dedicated Partner Success and Marketing team will help guide you in leveraging our proven integration models to drive loyalty and retention and enhance your offerings.

**#1 top-of-mind Cyber Safety brand globally<sup>1</sup>**  
with 4 decades of experience

**#1 most recognized brand in the U.S.<sup>1</sup>**  
for identity theft protection

## Why partner with us and offer Cyber Safety to your customers?

Online scams pose an increasing threat to consumers around the world, and the advent of AI has amplified these risks. In fact, 66% are concerned they may fall victim to a scam<sup>2</sup>, and 62% who do become victims are impacted financially<sup>3</sup>. Despite this, many people find Cyber Safety solutions complicated and difficult to navigate.

### Scams continue to evolve and plague consumers

**\$1.03 trillion** is lost to scams globally<sup>4</sup>

The most common scam people fall victim to are **payment scams**<sup>4</sup>

**64% of all mobile malware attacks** today are scams<sup>5</sup>

Customers are seeking simple, holistic solutions from trusted providers like financial institutions and service providers. By meeting this demand, you're positioned to gain their trust, protect them from scams and identity theft\*, and enhance their digital safety.

# Flexible integration options

Our solutions can be tailored to suit your unique needs, helping protect your customers from online scams, identity theft\*, and other cyberthreats. By partnering with us, you can differentiate your brand, increase customer retention, and expand your customer base.

## Option #1 Hosted in Norton's User Experience

Deliver powerful scam and identity theft protection\* solutions to your customers, hosted within Norton's user experience. Choose between a **co-branded** or **white-labeled** approach, tailored to match your brand's look and feel.

### Benefits of co-branding & white-labeling

#### Own the customer relationship

Maintain control of pricing, communication, and branding

#### Fully customizable look and feel

Choose between a co-branded or a white-labeled approach

#### Flexible pricing

Configure products to align with your margins and objectives

#### API delivery

Simplify integration into your existing ecosystem for seamless lifecycle management

#### Increased retention

Leverage our high Net Promoter Scores (NPS) and proven retention rates to build trust

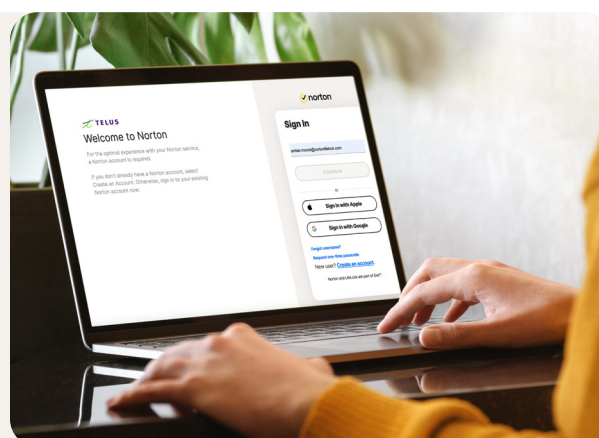

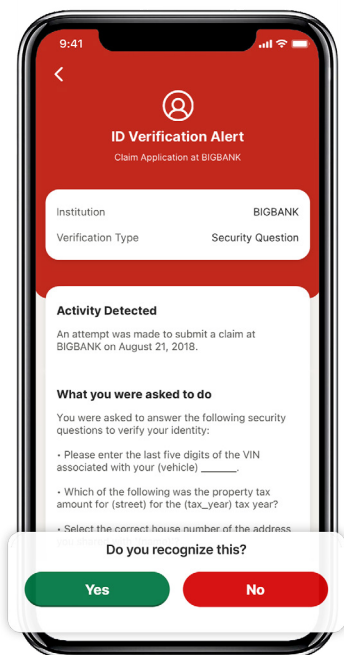

**Ideal for:** Businesses seeking a seamless integration of scam protection solutions without the need for extensive customization. Leverage our expertise in Cyber Safety, ongoing user experience testing, and continuous innovation.

### Co-branding partner success story: TELUS

TELUS Online Security powered by Norton was created as the result of a strong collaboration with our Telco partner, TELUS.

By leveraging our APIs, TELUS is able to control their customer enrollment and subscription experience.

## Option #2 Embedded into your user experience

Integrate any of our scam and identity theft protection\* solutions directly into your platform (app or web), using our SDKs to enhance your customer experience.

### Benefits of embedding

#### Control the customer experience end-to-end

Strengthen your brand while enhancing user satisfaction

#### Seamless user experience

Use our SDKs for seamless, fully white-labeled integration, embedded into your user experience

#### Boost your offerings

Add valuable features to your existing service

#### Lower development costs

Reduce the time and expense of creating new products

#### Stay relevant

Meet evolving customer expectations with cutting-edge solutions

**Ideal for:** Companies looking to keep customers within their ecosystem, as well as businesses aiming to enhance their offerings by increasing engagement and perceived value.

## Option #3 Affinity marketing model

Unlock new revenue opportunities while enhancing member value through our affinity marketing model. By promoting our solutions to your member base, you can create a seamless experience while building stronger member relationships.

### Benefits of affinity marketing

#### Quick setup

Launch partnerships with minimal effort by driving traffic to a dedicated co-branded campaign landing page

#### Leverage trusted brands

Benefit from the recognition and credibility of LifeLock and Norton

#### We handle the customer process

From sign-up to onboarding, we manage it all

#### Generate revenue

Earn revenue share for referring your customers to us

Norton is the premier name in cybersecurity and device security - what better partner is there to have in that space for our members? Furthermore, our members renew the Norton product at a higher rate than with other products, which is a win-win for everyone in terms of revenue generation.

- Carlo Mirasol, Director of Strategy and Partnerships for AAA Northeast

**Ideal for:** Member-based organizations seeking value-added services to strengthen member relationships, increase loyalty, and drive engagement, all while building sustainable revenue channels.

## Why choose us?

**Portfolio of trusted global brands:**  
LifeLock, Norton, Avast, AVG, and more

**Unmatched experience:** Over 4 decades of leadership in cybersecurity

**Extensive reach:** Over 7,600 established partnerships in 20+ countries, serving millions

**Dedicated support:** A Partner Success team that's committed to your success

**Scam and identity theft protection\*:**  
Customers experience fewer incidents of identity theft and online scams

**Customer trust:** LifeLock and Norton solutions maintain some of the highest NPS scores in the industry

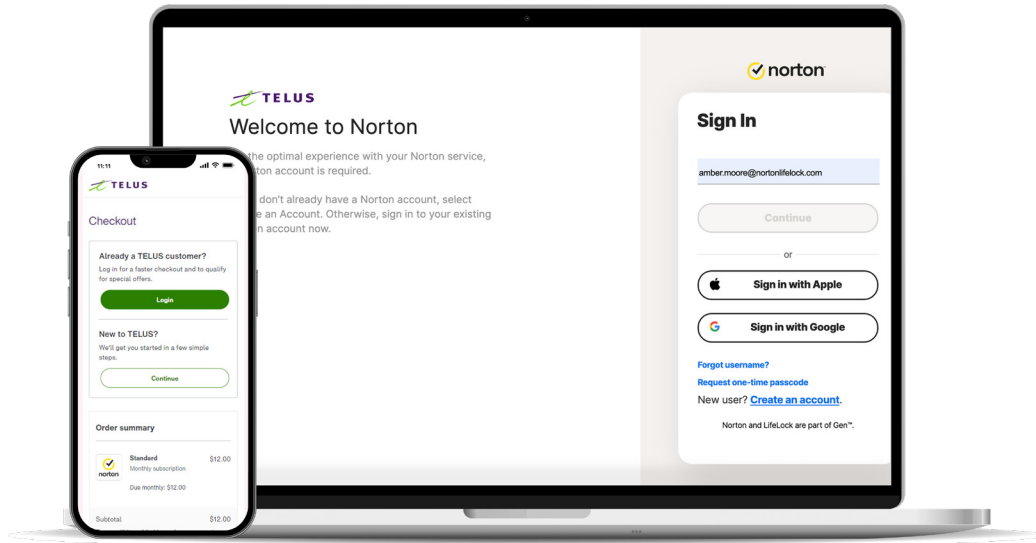

## Partnering with industry leaders in:

- Retail and e-tail
- Original equipment manufacturers (OEMs)
- Telecommunications
- Financial services
- Affinity organizations
- Employee benefits

## Trusted by industry leaders†

## Partner spotlight

### Real results from our partners

By leveraging Norton's API, TELUS is able to control their customer enrollment and subscription experience. TELUS Online Security powered by Norton was created as the result of a strong collaboration between TELUS and Norton. This exclusive product was developed and customized based on TELUS' needs.

The API provides the interface for our partners to manage the full subscriber lifecycle of Norton product subscriptions. Utilizing this type of integration model keeps customers within the TELUS ecosystem, allowing the TELUS brand to lead – this helps build customer loyalty, yet also leverages the trust and recognition of the Norton brand.

"Norton is a great team to work with – they're the best of the best. **We see it consistently in our surveys, we see it in its functionality, and we see it in the operations of the product and the rigor with which Norton really leads from a thought leadership perspective,**" said Kyle Simunovic, Channel Strategy and Product Enablement Manager.

We've made great strides over the years on improving customer satisfaction, loyalty, and churn – and based on our internal research, **we're now viewed as the solution with the best customer service** among Canadian competitors.

- Eddy Tan, Marketing Manager for TELUS

✓ **10%+**

of TELUS customers subscribed to their product within 4 years

✓ **90%**

customer retention rate maintained

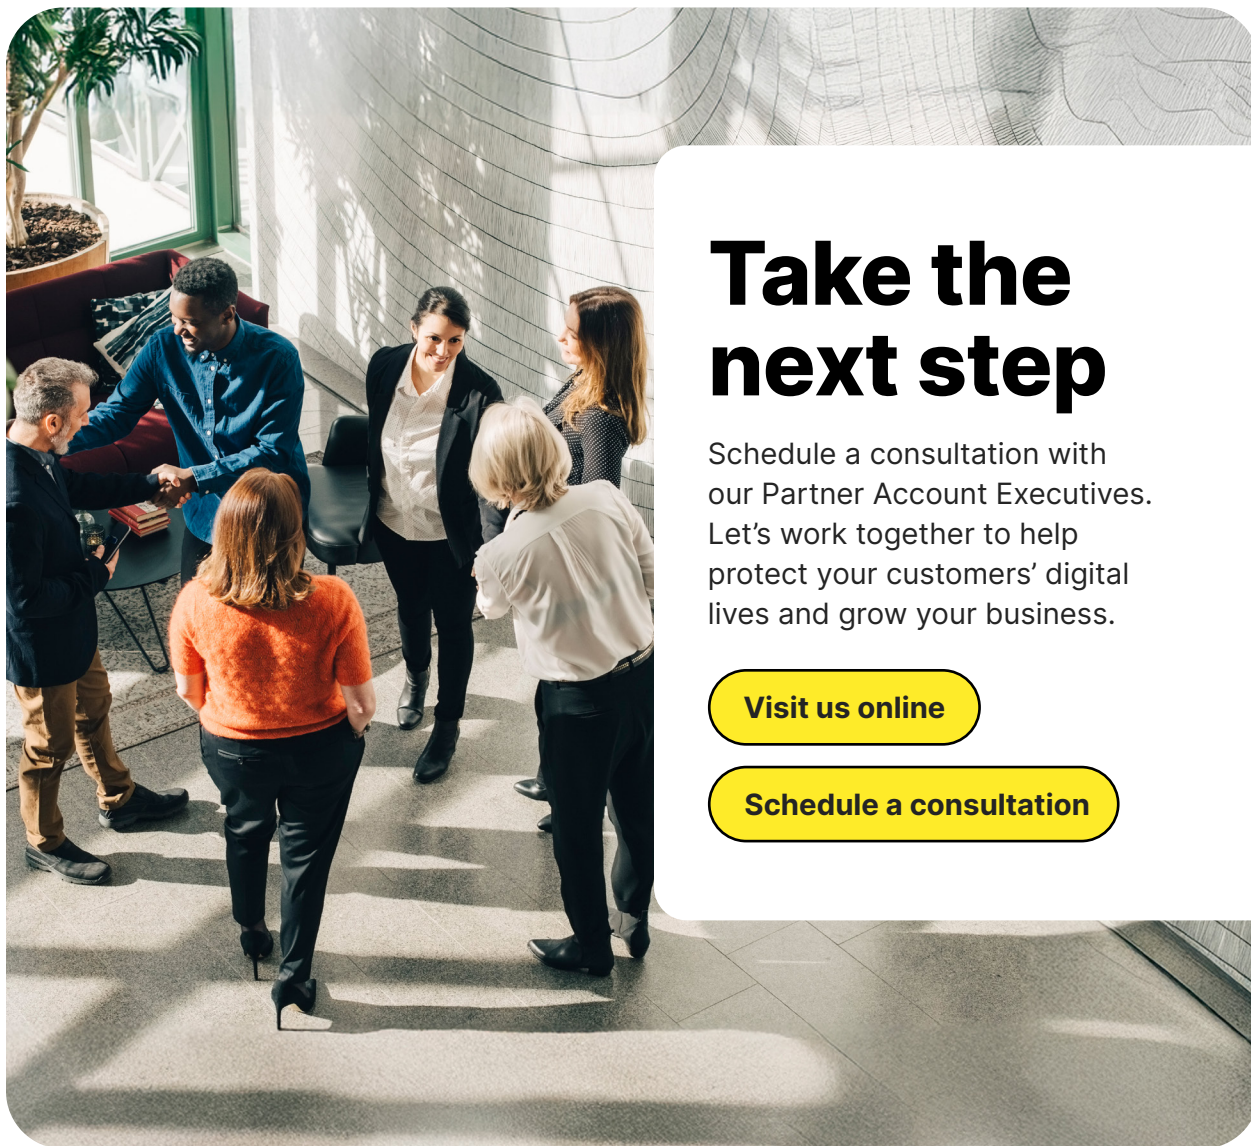

✓ **37%**

growth continues year-over-year

✓ **65%+**

subscriber activation rate in digital channels
